European Catalogue

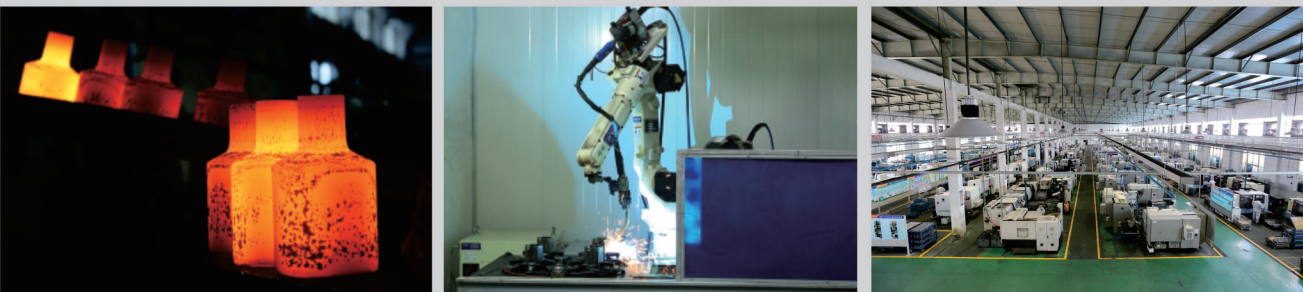

Zhejiang ODM Transmission Technology Co., Ltd. is a Sino-foreign joint venture enterprise with the capability for research & development, engineering and manufacturing of C.V. Joint & Drive Shaft. Its precursor Taizhou Hongli Auto Parts Ind. Co., Ltd has more than 30 years of professional manufacturing experience. Since 1987, the company has started the production of C.V. Joint and Drive Shaft. In 2005, the company invested more than \$20 million to set up Pinghu manufacturing facility with international advanced level.

The company has more than 1,000 employees, covering an area of 140,000 m². By upholding core values of “Concentration, Innovation, Honesty, Responsibility”, plus the implementation of continuous improvement in management and technical innovations, ODM has grown into the most competitive enterprises in domestic and global automotive drive shaft industry.

ODM has successively invested hundreds of millions RMB to bring in advanced equipment covering the entire manufacturing process from Germany, Italy, Japan and Taiwan region. In 2016, ODM received the National Laboratory CNAS Certification. In 2018, on the basis of TS16949 international quality management system, ODM has passed the IATF16949 international quality management system upgrade certification, and won the “Jiaying Mayor Quality Award” in the same year.

All the ODM staff is committed to provide the best product and service to the global OEM and aftermarket customers. ODM has cooperated with many well-known domestic and international car manufacturers, and awarded “Excellent Quality Award”, “Delivery quality Award” and “Quality Breakthrough Award” by automobile factory for many years. Meanwhile, ODM has also become a major supplier for many famous global automotive after-market brands. The “ODM” brand is widely recognized in China, Europe, America, Southeast Asia, Middle East, Africa and other markets. The product information has also entered the world-renowned TecDoc platform.

ODM has developed more than 6,000 types of C.V. Joints and Drive Shafts for a variety of domestic and foreign carmakers. The annual production capacity of C.V. joint reaches to 10 million pieces, and drive shaft more than 6 million sets.
